DETAILED ACTION

Election/Restrictions

Applicant's election of Group II claims 28-30 without traverse in the reply filed on December 2, 2009 is acknowledged. The claims 1-27 and 31-50 are withdrawn from consideration.

Claim Rejections - 35 USC § 102

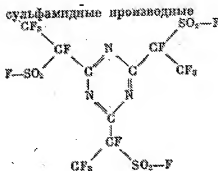

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 28 are rejected under 35 U.S.C.102 (b) as being anticipated by Ragulin et al. (Izvestiya Akademii Nauk SSSR, Seriya Khimicheskaya (1969), (10), 2224-30, herein referred to the English-language translated equivalent cited to for page and paragraph).

Regarding claim 28, Ragulin et al. teaches a fluorinated sulfonyl fluoride substituted 1, 3, 5-triazine as shown below (page 5):

Wherein the "CF-CF₃" groups correspond to the instant application R¹, R², or/and R³, m=n=p=1, and A³=1, 3, 5-triazine. It meets the claimed limitations.

Allowable Subject Matter

Claims 29-30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance:

The claims are novel over the closet prior art. The closest prior art is by Ragulin et al. (Izvestiya Akademii Nauk SSSR, Seriya Khimicheskaya (1969), (10), 2224-30) as discussed above.

Ragulin et al. teaches a fluorinated fluorosulfonyl tri-substituted triazine.

However, neither Ragulin et al. nor any of the prior art of record specifically teaches or suggests an aromatic heterocyclic group di-substituted with fluorinated sulfonamide groups as per applicant claims 29-30. Therefore, the claims are novel.
